

SHITAL NIRMAL

Full Stack Developer Intern

+91 9545876775 | Pune, India | nirmalshital3@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#) | [HackerRank](#)

OBJECTIVE

Final-year Computer Engineering student with hands-on experience building full-stack, role-based web applications using React.js, Node.js, Express.js, REST APIs, JWT authentication, and relational databases (MySQL, PostgreSQL). Comfortable across the stack: responsive frontend interfaces, REST API development, layered backend architecture, and SQL/database operations, with regular use of AI tools (ChatGPT, Claude, GitHub Copilot, Gemini) to speed up coding, debugging, and documentation. Seeking a Full Stack Developer Internship to contribute to real-world business applications.

EDUCATION

- Pimpri Chinchwad University, Pune, India** 2023 - 2027
B.Tech, Computer Engineering | CGPA: 8.38 / 10.00

SKILLS

- Languages:** JavaScript, SQL, HTML5, CSS3
- Frontend:** React.js, React Hooks, React Router v6, Context API, Reusable Components, Responsive UI/UX
- Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, Layered (Controller-Service-Repository) Architecture
- Database:** MySQL, PostgreSQL (RDBMS schema design, queries, Prisma ORM)
- Web Technologies:** REST API design & integration, HTTP Methods, JSON, Fetch API, Axios
- AI Tools:** ChatGPT, Claude, GitHub Copilot, Gemini — for coding, debugging, and documentation
- Tools:** Git, GitHub, VS Code, IntelliJ IDEA, Vite, MySQL Workbench
- Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Clean Code Principles, Problem Solving

PROJECTS

- Pathfinder** — *Student Career & Academic Dilemma Platform* · In Development
React.js | Vite | React Router | Node.js | Express | MySQL | Prisma | JWT
 - Solo-architecting a platform for students to share and browse career/academic dilemmas, with a React + Vite frontend organized by domain (dilemmas, experiences, contributors, shared components).
 - Built out core UI components (Hero, Filters, CommunityInsight, ResourceSection, ExperienceCard, ShareExperienceForm) across a multi-page flow: dilemma directory & detail, experiences, contributors, and sign-in.
 - Designed the relational MySQL schema (users, dilemmas, experiences, resources, votes, badges) for the planned Node.js/Express backend with Prisma ORM and JWT authentication.
- StoreScore** — *Full-Stack Role-Based Store Rating Platform*
React.js | Node.js | Express.js | MySQL | JWT | REST APIs
 - Built a full-stack store rating platform with three role-based experiences (Admin, Normal User, Store Owner) behind a single login that redirects by role.
 - Designed and implemented the backend using a layered controller → service → repository architecture in Node.js and Express.js for maintainable, testable code.
 - Built and integrated REST APIs for authentication, rating submission/updates, and admin CRUD (search, filter, sort) over a relational MySQL schema, secured with JWT and bcrypt, and consumed by a responsive React frontend with role-gated protected routes and a reusable star-rating component.
- Torii** — *Japanese Learning Platform* ([Live Demo](#))
React.js | JavaScript | Vite | React Router | Context API | CSS Modules
 - Developed an 11-page interactive React SPA using reusable components, client-side routing, and protected routes with React Router v6 and Context API for global state.
 - Built an interactive quiz engine with randomized questions, real-time scoring, conditional rendering, and localStorage-based progress persistence.
 - Created responsive, accessible UI and deployed the application to Vercel for production use.

CERTIFICATIONS

- React.js — Basics to Advance — Physics Wallah
- HackerRank Certified: Java (Basic) — Verified Skill Certification
- Generative AI for All — Physics Wallah × Microsoft

ACHIEVEMENTS

- Earned the LeetCode 50 Days Badge (2026) and a 4-Star HackerRank SQL Badge for consistent, proficient database problem-solving.
- Took the Torii React application from local development to a live production deployment on Vercel.
